Recommended kit list

For your forthcoming workshop, we recommend the following photographic equipment. The essential items are highlighted in bold text. The remaining items are non-essential but useful and may increase the number and range of photo opportunities you are able to exploit. If you are unsure about what gear to bring or have any questions, please call us on **+44 (0) 1305 831752**, or e-mail us at **info@chrisweston.uk.com**.

For all users

Digital or film SLR camera

Lenses in the range 100MM – 300MM

Shorter focal length lenses (e.g. 17MM – 28MM)

Longer focal length lenses (e.g. 400MM)

An alternative to long telephoto lenses is a tele-converter (e.g. 1.4x or 2x)

Small flash unit (preferably with off-camera bracket)

Monopod or tripod with head

UV filter (screw-in type)

For digital users

Spare memory cards

Spare battery

Battery charger

For film users

Spare battery (if applicable)

Spare film (100 and 400 ISO)

81A and/or 81B warming filter

*Chris Weston recommends Crooked Imaging – the Photographic Accessories Shop. We have arranged for special kit packages and discounts for customers of Chris Weston Photographic Workshops. View their product range at **www.crookedimaging.co.uk**.*
